Lindshammars glasbruk, som grundades 1906, ligger precis där Mörrumsån rinner upp i Småland.

Det är i Nottebäcks socken, ungefär mitt emellan Växjö och Vetlanda på riksväg 31. Lindshammars räknas i dag till ett av Skandinavians ledande konstglasbruk. Antalet anställda är 150 samt ett 100-tal vid AB Alsterbro Glasbruk, som inköptes 1960.

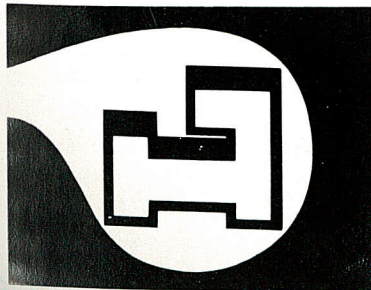

Mottot för Lindshammars glasbruk är: Kvalitetstglas, som de flesta människor kan köpa. Brukets produktion präglas också av ständig förnyelse. För denna svarar formgivarna, arkitekt Gunnar Ander, skulptör Christer Sjögren och konstnär Gösta Sigvard. Med sina personliga temperamenter skapar de dagens Lindshammars-glas.

Lindshammars tillverkar också s. k. arkitektglas – glasblock i ett 60-tal färger för dekorativ utsmyckning. Detta glas har blivit mycket uppskattat inte minst av vårt lands ledande konstnärer.

Lindshammars Glassworks, which was established in 1906, is situated at the point where Mörrumsån rises in Småland, in the parish of Nottebäck, about half-way between Växjö and Vetlanda, on the State Road No. 31. Today Lindshammars is considered as one of the leading manufacturers of artistic glass-ware in Scandinavia. The company employs 150 workers and a further 100 at AB Alsterbro Glasbruk, which was acquired in 1960. The motto for Lindshammars Glassworks is: quality glass which most people can buy. Lindshammars products are constantly changing and the new designs are produced by Gunnar Ander, architect, Christer Sjögren, sculptor, and Gösta Sigvard, artist. With their personal talents they create the Lindshammars glass of today.

Lindshammars also manufacture so-called architectural glass, glass blocks in 60 different colours for decorative work. This glass has a high reputation particularly among the leading artists in Sweden.
